---

Dear Noah Hradek,

This is to acknowledge receipt of your 27 July 2023, Freedom of Information Act (FOIA) request for Requesting information on "Project Preserve Destiny".

Your request does not sufficiently describe the desired records. The FOIA applies to existing Air Force records; without more specific information from you, we cannot identify what documents might be responsive to your request. In order for us to continue to process your request, we need to know why you believe the Air Force or what Air Force element may have created the records you are seeking. In order for a FOIA request to be processed, the material being requested must describe the records being sought as specifically as specifically as possible.

Our office will place your request on hold, pending your response, until 23 August 2023. If we do not hear back from you by that time, we will administratively close your request.

We have assigned number 2023-05430-F to identify your request; should you need to contact us about your request. Please direct your questions to [SAF.AA.HAF.FOIA.Workflow@us.af.mil](mailto:SAF.AA.HAF.FOIA.Workflow@us.af.mil) and use this assigned number to assist us in responding more promptly.

Very Respectfully,

HAF FOIA TEAM
